Results and data history log

Easy-to-adjust lighting and camera settings include trigger modes and focus

Image with overlay graphics

See What the Reader Sees.

Review images of codes being read live or setup the reader to transfer unread code images via FTP for later review. This visualization feature enables diagnosing unread codes for process improvement.

Performance Feedback for Process Optimization.

Cognex Real-Time Monitoring (RTM) technology provides performance feedback in easy-to-use dashboards within the DataMan Setup Tool. RTM tracks and grades the quality of code images and provides valuable insights and process control metrics across an entire facility.

Solutions that Enable Productivity

Flexible & cost effective.

The Inspector D4000 Portable Bar Code Verifiers is the industry's most flexible and cost-effective ISP/ANSI bar code verifier. This unit comes with your choice of a patented Auto-optic scan head with four aperture sizes and two light wavelengths (eight different optical configuration) or an optional traditional laser scanner, for point-and-shoot simplicity.

Optional Accessories
• Charger with 4 x rechargeable Battery
  S$232.00*

• Printer with cable & paper
  S$1,443.00*

• VCIR Inspector Series PC Interface Software Kit USB
  S$790.00*

Inspector D4000
Auto Optic Model

Designed and manufactured by RJS for the sole purpose of performing ANSI method bar code quality analysis.

• ISO/ANSI Scan profile test method
• Instant "On-screen" ISO/ANSI grade
• ISO/ANSI 10-scan Averaging
• Traditional Test Method
• Reflectometer Mode
• Auto-switch Symbologies
• Aperture/Wavelength selection
• Automatic Power Off
• Inspection Report Storage Buffer

Includes
• 1 year warranty

S$3,807.00*

Inspector D4000
Laser Model

Portable bar code verifier can interface with either the patented RJS Auto-Optic scan head or a laser scanner.

• Traditional Test Method
• Database Product Lookup
• Print Gain Measurement
• Auto-switch Symbologies
• Automatic Power Off
• Inspection Report Storage Buffer

Includes
• 1 year warranty

• 1 year warranty

S$5,025.00*

Technical Knowledge Base
Know more about Barcode Verification

The ANSI X3.182 standard was the first to address how to determine the quality of a bar code and it consisted of eight tests and a method to assign a grade of F (worst) to A (best). The overall grade for a bar code is the lowest grade of any of the eight parameters. So you can have seven tests with an "A" grade but one test with an "F", then the overall grade is an "F".

It was determined that if a barcode received a "C" or higher then it would be up to the manufacturer of the scanner to ensure the bar code would be read, lower than a "C" and the printer needed to fix their print quality.

UIC

Award-winning components and systems.
UIC's simple-to-use products combine affordability, reliability, and performance to enable the most high-value and secure transactions.

ST8210
Check Reader
The fastest ID card printer in its class.

- Check Reading: Check Read/Decode/ Transmit Time: 2 seconds with 99% first pass good rate, 99.9% second pass good read rate
- MICR Fonts Supported: E13-B and CMC-7, auto discrimination memory

Includes
- USB cable
- 1 year warranty

S$477.00*

MSR213U
Magnetic Stripe Reader
Designed to read both credit cards and Driver Licenses.

- Card Handling Method Manual swipe, bi-directional
- Read 300~4000 Oe Magnetic card
- Error rate: <0.5%

Includes
- USB cable
- 1 year warranty

S$79.00*

MSR206U
Magnetic Stripe Reader
Portable bar code verifier can interface with either the patented RJS Auto-Optic scan head or a laser scanner.

- General verification device
- Verify using IR light
- Data match
- Measure material reflectance
- Portable verifier for screening codes printed on thermal or laser printers

Includes
- USB cable
- 1 year warranty

S$810.00*

Do you know?

Succesful first pass good rate
In an environment where large volumes of checks are present, the ST8210 can provide a quick return on investment.

More than a million bidirectional swipes
The MSR213U Read high and low coercivity magnetic stripes (300 ~ 4000 Oe). USB HID or USB keyboard emulation interface ; no third party device driver is required.

Outstanding features
The MSR206U write and verify data simultaneously in one swipe single, dual or triple tracks. Read/Write High and Low coercive force of magnetic stripe

ZEBRA

Designed to meet every need.
Zebra's bar code scanners are the foundation of mobile enterprises, providing superior data capture performance and seamless integration with other networks and information systems.

DS8178SR
Handheld Scanner
A PowerPrecision Plus smart battery powers for up to 24 hours of continuous scanning on a single charge.

- 1D, 2D, digimac scanning
- 6.0 ft./1.8 m to concrete
- PowerPrecision+ Smart battery
- Omnidirectional scanning

Includes
- USB Kit
- 3 year warranty

S$1,759.00*

LI3678SR
Ultra-Rugged Scanner
Unstoppable performance for standard range 1D barcode capture.

- Standard range 1D barcode capture
- IP65 sealing
- PowerPrecision+ Smart battery
- Single line scanning

Includes
- USB Kit
- 3 year warranty

S$1,669.00*

LS2208
Handheld Scanner
The best-in-class LS2208 laser delivers unparalleled performance, every time.

- 1D scanning
- Multiple on-board interfaces
- Omnidirectional scanning

Includes
- USB Kit
- 5 year warranty
- Stand

S$299.00*

DS2278
Cordless Handheld Scanners
Affordable imager that doesn't compromise performance or features for price.

- 1D, 2D, PDF417 scanning
- 5.0 ft./1.5 m to concrete
- Shift life 14 hours
- Omnidirectional scanning

Includes
- USB Kit
- 3 year warranty

S$879.00*

CS3070SR
Companion Scanners
Enable anywhere anytime cost-effective 1D laser scanning.

- 1D scanning
- 512MB Flash Memory
- 4 ft./1.2 m drops to concrete
- Single line scanning

Includes
- 1 year warranty

S$499.00*

DS457
Fixed Mount Scanners
Enable high-volume hands-free scanning from retail POS and airport boarding gate to manufacturing production line.

- 1D, 2D and direct part marks
- 30 in./176 cm drops to concrete
- IP54 sealing
- Omnidirectional scanning

Includes
- RS232 Kit
- 1 year warranty

D!Cube
The Signage Hub

Commercial A/V Solutions.

KanexPro is a key solutions provider carrying a complete selection of professional audio-visual products. When planning digital installations you will find that we provide a broad line of A/V connectivity products enabling you to broadcast, extend, split, or multiply HD signal transmissions; simply and cost-effectively.

4x4 HDMI® 4K/60 Matrix Switcher

Cross switch 4-HDMI sources to 4-HDMI displays with 4K/60Hz.
SW-HDMX44CE

· Cross switch 4-HDMI sources to 4-HDMI displays with 4K/60Hz
· Supports sampling rate of 4:2:0, including 1080p & 3D video
· Fully compliant with the HDMI 1.4 and HDCP 2.2 specifications
· Smart EDID management to match the connected displays
· Supports front panel buttons, IR remote and RS232 control
· Includes IR kit and remote

Includes
· 3 year warranty

S$759.00*

4K/60 HDBaseT™ 4x4 Matrix Switcher

Drive the Distance with 4K UHD to 4 outputs, De-embed audio, IR & RS-232.
MX-HDBASE4X4-4K

· Ultra-fast 4x4 switching with instant display
· Distribute 4 HDBaseT outputs up to 70m at 1080p&35m at 4Kx2K on a single CAT5e/6 cable
· Supports power over Ethernet (PoE) to all four receivers
· Two HDMI mirrored outputs for local monitor support
· Deep color support up to 16 bit
· RGB/YCbCr 4:4:4, YCbCr: 4:2:2, 4K/30Hz
· Illuminated buttons w/ Front panel LCD

Includes
· 3 year warranty

S$3,759.00*

HDMI 1x4 Distribution Amplifier over CAT5e/6 Outputs

Distribute & Extend HDMI over Single CAT5e/6 to four HD displays.
SP-HDCAT1X4

· Distribute & Extend HDMI over Single CAT5e/6 to four HD displays
· Supports transmission distance up to 394 ft. (120m)
· Supports full HD 1080p (1920 x 1080@60Hz)
· Works on existing network without sacrificing bandwidth
· HDCP 1.4 & EDID support for multiple displays
· Control via IR (kits included)
· Live status indicator thru LED's
· Includes 4-independent receivers

Includes
· 3 year warranty

S$1,049.00*

9-Input Scaler & Switcher with 4K HDBaseT Input/ Output

Auto Switch & Scale 9-inputs to two 4K displays w/ Built-in Mic audio & Control.
SW-HDSC914K

· Auto switch & scale 9-inputs to two 4K displays
· Output resolutions selectable to: 1280x720(default), 1920x1080, 1024x768, 3840x2160@30Hz & 3840x2160@60Hz
· Compliant with HDMI 2.0 & HDCP 2.2
· Built in 40 Watt amplifier for speaker systems
· Built-in volume control
· Built-in easy to use Web Interface for control and switching
· POH – receiver inclusive x 1

Includes
· 3 year warranty

S$4,509.00*

iDesign™

iDesign™ v8 - Your ideal ID Card Software.

The ideal choice for all organizations. iDesign can link databases, face capture with webcam, encode magnetic stripe, handle dual side and 1D,2D barcode printing, manage your print jobs and more.

iDesign
your ideal ID Card Software
Affordable
Advance
Effortless
Powerful

iDesign goes Keyless!

· Keyless and online registration.
· Manual offline registration is available too.
· Saving cost on shipping charges. All via emailing.
· No more USB port detection issues!
· No more misplacing or missing hardware dongle key.
· No more permanently taking up the USB port.
· No more key driver compatible issue with Windows OS.
· Available to use in high secured environment where USB ports are blocked.

With this powerful software, you can have a total integrated environment which enables you to produce consistently great looking card after card.

iDesign is simply the most affordable and technically advanced ID card solution in the market today! With its powerful features, anyone can create and print colorful and customized secured photo IDs card effortlessly.

RFRain®
Radio Frequency Research & Innovation

IoT RFID Solutions Provider,
Innovative Inventory Management and Asset Tracking.
Easily track your important assets from production all the way to final delivery. Clear end-to-end visibility leads to wiser decisions, higher productivity and mitigates risk due to theft and loss resulting in better customer service & lower costs.

The Need
RFID technology has been recognized for the last 60 years as the solution to tracking things and people for security, control and protection. However, few have successfully implemented it. Why?

The Problem
There has been a BIG challenge. Multiple vendors were needed:
- *Reader or Antenna Hardware*
- *Sophisticated Software to make Big Data Useable*
- *Cloud Provider*

The Integrated Solution to your problem
RFRain has designed, developed and manufactured everything you need for Inventory Management & Asset Tracking. The company offers end-to-end solutions and the right product to meet your immediate needs.

Imagine one RFID system allowing your company to scan hundreds of items in seconds, tracking the physical items in the warehouse. No more mystery. If the item appears on your screen, it exists in the warehouse.

No more software and hardware integration headaches. RFRain solves the complex problem.

Applications

Supply Chain & Logistics
Increased productivity, improved visibility & utilization, mitigate risk, theft & loss.

Retail
Improved Inventory Accuracy, Cost Reduction, Theft Deterrence & Customer Experience

Manufacturing
Optimize Parts, Tools & Equip. Inventory mgmt., work order processing & shipment accuracy.

School Safety
Enhance the safety of the children and sta using our advanced monitoring solution from RFRain

Healthcare & Medical
Labor Savings, Improved Asset Utilization, Improved Patient Experience & Safety, Lower Costs.

Others
Regardless of your application, RFRain's innovative solutions can help you optimize and simplify your operations while lowering costs. Contact us today for more details and **FREE Demo**!

Hospitality & Leisure
Secure Access & Safety, Improved Asset Tracking & Theft Deterrence, Enhanced Productivity.

TRAK IT

Visitor Management System - Enhance your personal data protection.
Are you aware of Personal Data Protection Act 2012 (PDPA)? A comprehensive *Visitor Management System* that can provide powerful tracking feature that allows company to produce card size Visitor's badges on adhesive labels that valid for the day of visit for security purpose.
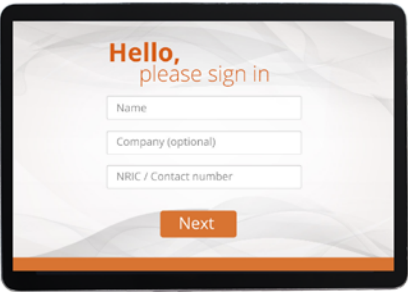

Identify, manage and track visitors in your buildings.
- App & Window based
- On-premise
- Self-check In
- Types of visitor selection
- ID scanning/Mobile number
- Print badge
- Auto check out
- Online Help/FAQ page
- Pre-registration
- Embed logo on check in screen
- Visitor history log
- Evacuation list
- Housekeep data
- Customise feature

Editions

Essential
A starter kit for you to track your visitor from the front door.

Premium
With a sophisticated feature, you will be able to capture photo, email notification and enable to see the blacklisted list in real time.

Professional
Suitable for user who need staff clocking, facility booking and asset management.

Inventory Control System
(Web Based/Windows Based)

Handles every aspect of inventory management, providing the ability to track every inventory life cycle from the time you receive good from your supplier to the moment you ship out the product to your customer.

Product Highlight
- Improve inventory accuracy.
- Eliminate tedious process.
- Easy tracking of inventory.
- Reduce storage space.
- Decrease labour cost.
- Accurate reporting.

Asset Tracking System
(Web Based/Windows Based)

Helps your organization to manage valuable assets efficiently and affordably. TRAK IT Asset Tracking System allows you to instantly locate any asset, eliminating wasted time spent searching for missing items and unnecessary expenditures to replace lost assets.

Product Highlight
- Maintain accurate record.
- Reduce storage space.
- Accuracy of physical asset auditing.
- Checking in and out of assets.
- Track loan details.
- Accurate reporting.

DNP

WAX - DSW Premium Resin-Enhanced Wax

DSW resin- enhanced wax ribbon outperform the competition in adherence of ink to a wider variety of substrates from uncoated papers to mid-range synthetic films. It uses the same patented backcoating, polyester and DNP advanced coating technology.

Another vital characteristic of this formulation is it's thinner in-coating weight allows it to produce longer ribbons with limited dameter. It is HALOGON FREE which is also associated with a clean green environment.

Honeywell Printer

WAX/RESIN - DSM Premium Wax-Resin

DSM Premium Wax-Resin mid range formulation is deisgned to print on wide range of substrates which includes coated and uncoated papers, tags and low end synthetic films. This ink formulation offers excellent barcode scanning with sharp, reliable images at a wide variety of printing speeds. Its unique ink formulation also dissipates static. Powerful resistance against smearing and scratch makes this extremely versatile all purpose wax-resin ribbon outperform the competiton. It is HALOGON FREE which is also associated with a clean green environment.

Honeywell Printer
